Director's Note

When Grandpa Vanderhof says to Mr. Kirby, the unhappy capitalist, "you can't take it with you, he was speaking to a generation who had been enduring eight years of the Great Depression. In a time of dust bowls, breadlines, and social unrest, George S. Kaufman and Moss Hart touched the heart of the American public by reminding them that life was more than debits and credits and that you are in charge of your happiness.

Mr. Kirby accuses Grandpa of practicing "downright Communism", a very real threat in America during the 1930's. Grandpa goes on to convince Mr. Kirby that riches aren't always counted in dollars and

cents and that there should be more to life than going to an office that you hate and worrying about who gets elected president. He also had a lot to say to this generation of people who are inundated with daily reports of how the stock market is up 200 points one day and down 250 points the next, the 99% occupying Wall Street and the constant fighting in Washington between Republicans and Democrats. To the Sycamores and Grandpa Vanderhof, life is about family, achieving your potential, and doing what makes you happy, because, after all, you can't take it with you.
